Fall Arrestor Falcon™ Honeywell Miller® with Galvanized Cable

Product information

Nearly indestructible, the high impact-resistant nylon housing withstands the harsh rigors of the toughest applications. These light, most rugged line of composite fall arrestors are designed with smooth, round edges to increase durability.

Features

- Corrosion-resistant stainless steel and aluminium internal components extend service life and reduce replacement costs.
- Lightest composite unit on the market - easy to handle and transport to and from job sites.
- Unique side payout design reduces wear on the entry guide bushing and cable for smooth operation with less drag.
- Smooth, quiet operation; engineered spring retraction tension designed not to pull or drag on a worker to improve productivity and reduce fatigue
- Built-in, ergonomically-designed molded handle on the 15m and 20m units makes the units easier to install.
- Dual swivels (unit top and snap hook) included on all models to minimise lifeline from twisting during use.
- New and improved load indicator on the snap hook identifies when the unit needs to be removed from service.
- No annual facotre recertification required - lowers cost of ownership and increases productivity.
- Return to manufacturer after five years for recertification and annually thereafter.

Applications

- Construction
- Maintenance
- Elevated Work Platforms
