Miner's Harness Underground Duraclean

Product information

Rear / dorsal D-ring

Chest anchoring

The Miller Underground Miner's harness is a full body harness incorporating a prospector belt with tool loops, stainless steel hardware and aluminium quick connect buckles.

Features

- Rear fall arrest d-ring and d-ring extension.
- Floating frontal fall arrest d-ring.
- Fully adjustable leg straps.
- Aluminium quick connect buckles on the waist and leg straps.
- Prospector Belt incorporating removable battery and self rescuer strap.
- Equipped with confined space loops.
- Wider back pad offering greater back support and stability.
- Equipped with a label pack housing all relevant harness information including donning instructions, connecting instructions and inspection grid. The label pack is also equipped with an oversized pull-free lanyard ring enabling the user to temporarily park the lanyard.
- Manufactured from polyester webbing, the Duraclean webbing is treated with Rucostar E coating which forms an invisible protective sleeve around the webbing preventing water, oil or dirt from being absorbed into the webbing. Duraclean special webbing with water and oil resistant properties offers many advantages over standard products including good abraision resistance in comparison to standard polyester webbing.
