Chain Block Pacific OLL

Product information

Pacific Chain Blocks feature better quality in a new compact design. The extensive range is suitable for many applications in the mining, construction, industrial and automotive industry. A patented Overload Limiting device is available for all sizes (except 250kg capacity) to improve safety. These chain blocks have it all; better quality, easy to use, improved safety and all of this with reduced cost.

Features:

- High strength end stop with secondary end anchor for increased safety.
- “T” type hooks for improved load holding integrity (except for the 250kg capacity).
- Gear system design for reduced effort when lifting loads.
