Harness Construction AirCore™ Miller®

Product information

Chest anchoring

Rear / dorsal D-ring

The Miller® Construction Harness AirCore™, is a light-weight full-body harness.

It is specifically designed breathable, open-core padding technology provides optimal air flow, reduces heat and moisture entrapment and keeps the worker drier and cooler.

The patented Miller DuraFlex™ stretchable Duraclean Webbing provides greater flexibility and increased comfort. The unique, quick operating cam buckles on the shoulder straps make the vertical webbing adjustments easy. The distinctive webbing design creates a vibrant style for easy identification and greater visibility.

- Light-weight components specifically chosen to reduce fatigue for all-day endurance and increased productivity and lighter than most harnesses in the market.
- Corrosion-resistant and longer lasting aluminium hardware.
- Quick operating cam buckles on the shoulder straps make vertical webbing adjustments easier than any other harness.
- Quick-connect leg and chest buckles for easy donning.
- Heavy duty 18kN chest buckle for extra security.
- Distinctive webbing design for easy identification and greater visibility.
- Easy adjustable chest, shoulder and leg straps to suit a wider range of physiques.
- Aluminium frontal d-ring and stand-up rear fall arrest d-ring with fall indicator.
- Equipped with a label pack housing all relevant harness information including donning instructions, connecting instructions and inspection grid.
