Double Energy Absorbing Lanyard Miller® with TAK Ends

Product information

NO PICTURE

Double webbing lanyards enable access to different areas of a building or tower without being disconnected, and are the perfect way to be connected to an anchorage point at all times.

- Features an external energy absorber which allows for visual indication of a sustained fall.
- TAK each end.
- For use in fall arrest situations where the free fall does not exceed 2 metres.
- When estimating free fall distances, the extension of the energy absorber must be taken into consideration. The maximum energy absorber deployment is 1.75 metres.
