

Fall Arrest Falcon™ Miller® Stainless Steel Cable

Product information

NO PICTURE

The MILLER Falcon Type 2 Fall Arrestor is engineered for extreme durability to handle the most demanding conditions. These lightweight yet robust composite fall arrestors feature smooth, rounded edges to enhance longevity.

- Crafted with a virtually unbreakable, high-impact nylon casing
- Internal components made of corrosion-resistant stainless steel and aluminium prolong lifespan and decrease the need for replacements
- The market's most lightweight composite device, facilitating ease of movement and transportation to various worksites
- Innovative side payout design diminishes wear on both the entry guide bushing and cable, ensuring seamless operation with minimal resistance
- Operates smoothly and quietly; the spring retraction tension is calibrated to avoid exerting pull or creating drag on employees, thereby enhancing productivity and lessening fatigue
- Rapidly halts falls within mere centimetres, enabling swift and secure rescues

Marking: According to standard, CE-marked

Standard: EN 360

AS/NZS 1891.3 as a type 2 fall arrest apparatus
