Yale Mtrac® 2-Reeving KIT

Product information

The new Yale Mtrac® endless winch brings a new level of versatility to the well-known family of Yale hoists. With a state-of-the-art design that allows the winch to be operated vertically, at an angle and horizontally, the Yale Mtrac® provides optimal efficiency and flexibility for a wide variety of applications. The accessories for the two-part reeved option double the load capacity.

Features:

- Two-part reeving configuration doubles the load capacity
- Capacities 66kg to 300kg in single-reeved configuration (up to 600kg in two-part reeved configuration, optional).
