Tiger Rope (PP/PE) 8-Strand

Product information

Tiger Mooring lines are made from a blend of compatible Polyethylene (PE) and Polypropylene (PP) fibres, specially processed to combine the key features of each individual fibre to produce a multiplait shipping rope with great strength and abrasion characteristics. 8 strand Tiger Ropes are Yellow and Black.

Features:

- Abrasion resistance
- High strength to weight ratio
- Shock load resistant
- UV resistant with excellent weathering properties
- Excellent splicing
- Not affected by water
- Floats on water
- Kink resistance
- Distinctive colours
