

## Sisal Fibre

### Product information

For bundling small loads and other universal purposes.

**Design:** Braided.

**Specific gravity:** 1,33 g/cm<sup>3</sup>.

**Melting point:** 260°C.

**Elongation:** Low.

**Strength wet/dry:** 80%/100%.

**Shock absorption:** Bad.

**Water absorption:** Yes.

**Abrasion resistance:** Good.

**Standard:** EN ISO 1181.

**Material:** Natural fibre – 100% sisal.

**Finish:** Natural white.
