

# Superflex Single Slings

## Product information

Andromeda's Superflex Slings are crafted from plaited cable, offering unparalleled flexibility and reliability. They are renowned for their long-lasting durability, exceptional gripping power, and ease of cleaning and storage.

Ideal for general lifting applications, Superflex Single Slings are fitted with aluminium alloy ferrules as standard, with the option for steel ferrules up to 32mm upon request. These Australian-made slings are a market-leading product in the lifting industry, combining the strength of steel with unmatched flexibility.

Available in a variety of styles, sizes, and lengths, Andromeda's Superflex Slings offer endless possibilities for your lifting projects.

**Material:** Steel

**Safety factor:** 5:1
