Superflex Strop Sling Double Ended

Product information

Designed specifically as chokers, Superflex Strop Slings Double Ended are extremely versatile with excellent gripping power and are ideal for lifting elongated loads such as poles, piles, steel bars, drill rods and tube bundles. Superflex Strops are available in a variety of configurations to suit specific application requirements and are fitted with aluminium alloy ferrules unless otherwise specified. Upon request, steel ferrules can be supplied up to 32mm.
