

CR Socket standard

Product information

CR sockets are the best possible connection between a chain and a steel wire system. These CR sockets, are made of high-quality cast steel. The integrated "Non Rotating System" (NRS) is remarkable and it ensures that the molded wire can't slip or turn out of the cone during use. Non-standard sizes or custom products available on request. ISO 3189. DNV type approval.

Working Load Limit: 20% of the MBL

Standard Certification: Certificate of Conformity, 3.1 material Certificate EN 10204, Proof Load Certificate*, ABS Type Approval**

*Sockets are proof loaded at 40% of the MBL up to an MBL of 875 Mtons.

**When ABS Product Certificate for Mooring is required, the test program as given in ABS Offshore Mooring Guide shall be followed.
