Universal Plate Clamp

Product information

Universal Plate Clamp is designed for a wide range of uses for vertical lifting and is particularly suited for lifting and turning of steel plates of up to 180°. This clamp can be applied to a wide range of applications such as ship sections and the extraction of pile sheets which maintains a structure for safety against ground touching shocks of the loads.
This clamp is fitted with a hinged hoisting eye to allow movement in all directions.
This clamp is fitted with a safety lock device by which the lock will not disengage even if the lifting sling has been slackened, this guarantees the clamp will not disengage in both open as well as closed positions.

... *Read more*

Warning: The clamp is suited to a steel surface hardness of up to 37 RC.

Safety factor: 5:1
